KPA Campaigns and Events

During the past month of November, the KPA committee has been busy organizing events and activities for the membership. One of our priorities has been to support our members during the cost of living crisis by providing free meal boxes.

In addition, we held a viewing party for the FIFA World Cup at the KPA clubhouse, which was well-attended and enjoyed by all. We also took the time to thank the KPA clubhouse staff and team leader for their hard work and dedication in making these events possible.

While also working on these initiatives, the committee has been focused on preparing and setting up the new committee members for their respective roles. We are excited to welcome new members to the team and continue working together to support the KPA's mission and goals.
